

Dean's Directive No. 02/2022 for Re-admission to Study Programmes

Dean's Directive No. 20/2022 for Re-admission to Bachelor and Continuation Master Programmes of the Faculty of Nuclear Sciences and Physical Engineering of the Czech Technical University in Prague

The Directive addresses students of the Faculty of Nuclear Sciences and Physical Engineering of the Czech Technical University in Prague (further referred to as FNSPE) who failed to complete their Programme of Study and seek readmission to Bachelor or Continuation Master Programmes.

1. Submission of applications is subject to Notifications of Admission Procedures to the Bachelor or Master Continuation Programmes of FNSPE and the respective alternative or extraordinary term of admission.
2. By the time of re-enrolment to the new programme, the student is required to have terminated the previous Programme of Study.
3. Upon re-admission, the student is entitled to apply for recognition of successfully passed courses taken in his/her previous Programme, namely end-of-unit-assessments (in Czech "zápočet"), A - E graded assessments (in Czech "klasifikovaný zápočet"), and examinations graded A – E. However, Study and Examination Regulations for Students of CTU Article 13, par. 10 set a limit to recognition of courses: no course will be recognized if the time between application for re-admission and completion of the course exceeds five years.

doc. Mgr. Milan Krbálek, Ph.D.
Vice-dean for Student Affairs
